

## Model Series: YG-225

### Torch Lighter (single-flint striker)

Hand spark lighter for igniting oxy-fuel welding and cutting torches. Steel wire frame with replaceable flint and cup; produces sparks when scraped.

Part.No	Type	Body material	Flint	Dimensions (approx.)	Weight
YG-225	Single-flint striker	Plated steel wire frame, steel spark cup	Replaceable flint (standard size)	150 × 50 × 25 mm	~60 g

### Features / Applications

- Reliable spark ignition for acetylene/propane torches
- Long-life spring and replaceable flint wheel
- One-hand operation; lanyard hole for hanging

### Normes Applicables / Compliance

- Complies with common shop safety practices for torch ignition (non-flame lighter)
- Use PPE per EN ISO 11611; keep away from flammables when striking
