

## Model Series: YG-328

### Product Type : Conical Nozzle MB36KD (MIG/MAG)

Nickel-plated steel conical gas nozzle for MB36KD MIG torches. Provides focused shielding gas with good access to joints. Fits standard MB36KD diffuser/tip holder and M8 contact tips.

Specification	Value
Part.No	YG-328
Torch type	MB36KD
Shape	Conical
Bore Ø (ID)	12–16 mm (common: 12.5/14/16)
Length	~60–62 mm
Material/finish	Copper-coated or nickel-plated steel
Attachment	Slip-on with retaining spring/ring

#### Features:

- Conical profile improves access to fillet and butt joints.
- Durable plated steel resists spatter and heat.
- Easy slip-on installation and removal for cleaning.

#### Applications:

- MIG/MAG welding with MB36KD torches
- General fabrication and maintenance
- Steel structures and production welding

#### Regulations / Applicable Standards:

- EN 60974-7 (MIG/MAG torches and ancillary consumables)
