

## Model Series: YG-395

### Product Type : Anti-Stick Grease (Anti-spatter paste)

Anti-spatter paste for MIG/MAG nozzles and tip areas. Prevents molten spatter adhesion, extends consumable life, and eases nozzle cleaning.

Specification	Value
Part.No	YG-395
Form	Grease/paste
Use	Dip hot nozzle lightly to coat; reapply as needed
Compatibility	MIG/MAG nozzles, tip holders, contact tip area
Benefits	Reduces spatter build-up; longer nozzle life; faster cleaning
Storage	Keep sealed; store cool and dry

#### Features:

- Silicone-free industrial anti-spatter paste.
- Safe on common torch metals and plating.
- Works on steel and stainless MIG/MAG.

#### Applications:

- MIG/MAG production and maintenance welding
- Nozzle and tip-holder protection

#### Regulations / Applicable Standards:

- Use in accordance with workplace chemical handling rules and product SDS.
- EN 60974-7 (context: MIG/MAG torches and consumables around which the paste is used).
