

Model Series: YG-502 • YG-504 • YG-506

Product Type : TIG Back Cap (Short / Medium / Long)

Replacement back caps for common TIG torches. Seals the torch body, holds the tungsten collet, and provides varying reach and clearance.

Part.No	Description	Length	Torch series	Seal
YG-502	TIG Back Cap Short	22.5 mm	Fits popular air-cooled torches (e.g., WP-17/18/26 family) and compatible models	Integrated O-ring (replace if worn)
YG-504	TIG Back Cap Medium	58 mm		
YG-506	TIG Back Cap Long	117 mm		

Features / Selection:

- Short cap for tight access; medium for general use; long for extended tungsten stick-out and cooling.
- Brass head with durable polymer body and O-ring seal.
- Direct replacement for standard TIG torch back caps.

Applications:

- GTAW/TIG welding of steel, stainless, aluminum
- Maintenance, fabrication, and site work

Regulations / Applicable Standards:

- IEC/EN 60974-7 (torches and ancillary equipment—context)
- Check torch OEM for specific compatibility and maintenance
