

Model Series: YG-570

Product Type : WP26 TIG Cable Connector

Power/gas connector set for WP26 air-cooled TIG torches. Couples the torch power cable and shielding-gas line to the machine lead or adapter block.

Specification	Value
Part.No	YG-570
Torch family	WP26 (air-cooled)
Function	Connects torch power cable and gas line to machine/adapter
Components	Brass power connector, copper power lug/sleeve, gas nipple/line adapter with compression nut
Materials	Brass and copper for high conductivity; sealing olives as supplied
Compatibility	WP26 torch sets using separate power and gas lines; check thread and hose sizes per machine

Features:

- High-conductivity brass/copper path reduces heating.
- Secure gas compression fitting for leak-free connection.
- Service replacement for damaged/oxidized connectors.

Applications:

- Connecting WP26 TIG torches to power sources or adapters
- Workshop maintenance and torch assembly

Regulations / Applicable Standards:

- IEC/EN 60974-7 (torches and ancillary equipment—context)
- Verify thread/hose sizes and ensure leak testing after installation
